

FROM THE DISTRICT SUPERINTENDENT

Dear Parents and Community Members,

This 2012-13 Oregon state report card reflects assessment results for our District including the level of student reading and mathematics academic achievement and growth, as well as our high school cohort graduation rates. The report card shows that all District schools were above average (Level 4) in overall academic achievement with all but one school being above average in academic growth. The report card also indicates areas for improvement including academic growth for students with disabilities and the need for a continued focus on our high school completion rate.

Our staff is committed to ongoing instructional improvement. We are accomplishing this through specific strategies developed by our teacher teams throughout the district. This collaborative teaming effort is informed by student outcomes and is focused on success for all students.

Our District is grateful for the continued involvement and support of our parents and patrons who are a vital part of our District learning community committed to help all of our students realize their full potential.

Thank you,

Superintendent | John Higgins
